

JOIN THE EUROPEAN ANIMATION COMMUNITY

Since October 2015 a Board of 15 professionals has been directing the newborn "European Animation Awards" Association.

*A **first ceremony** would take place at the end of 2017 to give twenty different "Emile Awards" to the best artworks of the year! Since the beginning, the intention has been to celebrate the diversity, skills and excellence of European professionals and productions (short films, TV series and specials and feature films).*

Given the public concerned in the sector throughout the 46 countries participating in the project over 20,000 Europeans, the potential voting can be considered as votes that will be representative of the entire sector, which is one of the most dynamic in the audiovisual and cinema fields.

Furthermore, the association will gather a network of "ambassadors" who will develop national networks and will keep a watch on the sector, both in terms of structure (production, studios, festivals, studies...), art works and professionals.
